

HOLY TRINITY

GREEN B

- 1) $1 \times 1 + 1$
- 2) $12.3 + \underline{\quad} = 100$
- 3) What is 10% of 38?
- 4) Jake owes £782 to his house mate. He makes a payment to him, leaving him still owing £172. How much was his payment?
- 5) Convert $\frac{1}{8}$ to a decimal using bus stop division.
- 6) Joseph has £325. He spends £99.99 on a new phone. How much money does he have left?
- 7) On a summer's day, the sun rises at 04:37 and sets at 21:36. How much daylight is there?
- 8) Nathan, Mark and Andrea are going on holiday to Holland. The plane tickets come to £163.
They decide to each pay a little bit more than their share and give the left over money to charity.
They make up the amount they should each pay to the next £10.

How much will the charity receive?
