Getting ready!

Getting ready for our OFSTED inspection.

We have had our first visit of the year from Barnsley's Quality Improvement Officer, who assisted us with our Safeguarding Audit and Focus Improvement plan. They were very impressed with the results and are returning next week to help us achieve our very best for when OFSTED arrive at the end of the year.

We have introduced some new policies and procedures, safeguarding regulations, equipment and activities to the club this half term. The Fun Box children have also been growing some fruit and vegetables in our new 'mini greenhouse'.
