

Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

Part A: Pupil premium strategy plan

Statement of intent

At Holy Trinity, we believe that the best strategy to tackle disadvantage is to ensure all pupils are successful in the classroom. We aim to accomplish this by ensuring that pupils receive the very best learning experiences each and every day. Research tells us that the impact of highly effective teaching is much greater on disadvantaged pupils, so our strategy is to ensure teaching and learning at Holy Trinity is the best it can be. Through this approach, disadvantaged pupils will acquire the skills, knowledge and understanding to be successful in the classroom, leading to academic achievement and secure futures.

At the heart of this approach is the school's desire to draw upon the most up to date research and development across the educational sector to ensure our policies and practices are rooted in the strong evidence of their effectiveness. We do this in the following ways:

- Evidence informed practice to ensure the best pedagogical practices are in place
- Building Cultural Capital
- Pastoral and spiritual care and guidance
- Developing vocabulary and a reading culture
- Access to remote learning

The principles that underpin our ambition for our disadvantaged children

- A culture of high expectations of all pupils
- A belief that all pupils, irrespective of background or barrier to learning, can attain well
- All adults in the school - and governors - understand their role within the strategy
- A collective, shared vision and ambition for disadvantaged pupils which recognises that academic attainment is necessary, but not sufficient for success
- Disadvantaged pupils and their families are held in positive regard and this is evident through interactions within school
- Self-evaluation is rigorous and honest
- A strong understanding of the experiences and barriers to learning faced by individual disadvantaged pupils, that these barriers are different for each pupil and an understanding of how these present in the classroom
- The effective use of data to inform strategic planning
- The recognition that access to excellent teaching and learning is the key to success for disadvantaged pupils. Professional development targeted at pupil need is at the heart of the school's strategy

- Intervention is additional and extra to high quality teaching and learning. Class teachers always retain accountability for pupil achievement. The impact of intervention is carefully evaluated.
- That leaders, teachers and other staff target their resources at pupils at risk of underachievement. The focus is on ensuring disadvantaged pupils are successful in the classroom as opposed to being measured by the number of activities they undertake
- An engagement with research evidence to inform strategies and activities to overcome barriers to success, taking care to not use it selectively to support existing activities or biases
- That robust quality assurance processes, clear success criteria and impact evaluation is integral to success for disadvantaged learners
- Leaders, at all levels, are clear and can articulate the intended outcomes of strategy that relates to their responsibility

Challenges

This details the key challenges to achievement that we have identified among many of our disadvantaged pupils.

Challenge number	Detail of challenge
1	Engagement in teacher questioning and classroom discussions – this could be due to poorer previous academic outcomes, disruptions to learning due to attendance, both of which impact on students' confidence and/or ability to access the curriculum.
2	Organisation – this could mean students are less likely to be fully equipped for learning, on time, complete homework, have lower attendance or meet deadlines.
3	Cultural Capital – for some students, the accumulation of knowledge, behaviours, and skills that a student can draw upon and which demonstrates their cultural awareness, knowledge and competence might be more limited than for our less disadvantaged students.
4	Resilience and emotional well-being – for some students, prior lower outcomes lead to lack of confidence and, in turn resilience in lessons. This can also lead to a lack of aspiration.

Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
------------------	------------------

Narrow the gap between PP and non-PP students. Holy Trinity at least in line with National like for like outcomes.	43.2% at grade 5 or above (2019 non-PP national)
Improve non-Covid related attendance of PP students.	We will reduce the gap between our disadvantaged students and their peers in both primary and secondary reducing the figure year on year to meet our target for all students of 96% attendance.
Develop a culture around improving and researching teaching and learning.	A culture of continuous improvement is evident in school including the use of coaching and research as evaluative tools for best practice, which are embedded as part of the Holy Trinity Standard. <ul style="list-style-type: none"> • INSET focuses on areas of pedagogical practice for staff development • Staff coaching model encourages reflective practitioners
Ensure mental health and well-being strategies are in place in school.	Support is in place in school for students to access through a range of both internal and external agencies ensuring high levels of wellbeing. <ul style="list-style-type: none"> • Reflected in: student voice, teacher observations, and student surveys etc. • Increased engagement in enrichment opportunities.
Students will have access to a range of appropriate catch-up/interventions strategies to support attainment.	There will be a range of bespoke programmes in place internally and through external agencies to narrow the gap between disadvantaged pupils and their peers. <ul style="list-style-type: none"> • Phonics intervention KS1 & Y3 • Pre-teaching and same day intervention (Primary) • Y6 Booster sessions • Y7 Literacy and Numeracy intervention • School Led Tutoring KS2-KS4 • KS4 revision sessions
Curriculum provision is ambitious, challenging and sequenced to ensure high quality teaching and learning across Primary and Secondary phases.	Cross-phase planning will reflect the development of Cultural Capital and learning sequences from Primary through to Secondary ensuring that disadvantaged students will have access to the broader ideas and experiences shared by those who are less disadvantaged.
A reading culture is evident throughout the school; common strategies are used to raise the profile of reading, and the reading	Teachers will recognise an improvement in reading engagement in lessons and through the outcomes of reading comprehension tests.

Further information

- Our curriculum maps have been adapted to take into account any learning that might have been missed due to national lockdowns and the impact of COVID. Our middle-leaders are continually assessing gaps caused due to the global pandemic and have put in place recovery curriculums to ensure that students are not disadvantaged.
- Middle-leaders work across phase to ensure curriculum mapping is developed through both phases of the Academy.
- Students have access to a wide range of enrichment opportunities during break, lunch and after-school. These activities cover health and well-being as well as further academic study.
- GROW is a development programme supporting Y11 pupils to re-engage with their education following lockdown 1 and 3, the ongoing disruption and the important transition years as they look forward to their post-16 options. The programme provides pupils with a relatable role model – a recent, trained graduate – who can guide, champion and inspire them on their educational journey and beyond, and support an improvement in academic attainment.
- Kick Start employees will be supporting students in different areas around school: PE, reading, mental health and well-being.
- A new reading room has been furnished to create a quiet space for reading and to support the Accelerated Reading programme.
- All Year 7 students were welcomed with a Holy Trinity embossed pen pack and water bottle.
- All Year 7 students were gifted a copy of the Marcus Rashford text 'You are a Champion'. Students have undertaken some shared reading with their form tutors before taking the books home.
- We continue to use research and guidance from multiple sources eg EEF to ensure effective use of Pupil Premium spending and the impact it can have on disadvantaged students.
